# Subject Index

A
adolescence
  development leading up to, 28–30
  early, 6–13, 21
  late, 17–22
  middle, 13–17, 21
  psychoanalytic theory of, 1–2
adolescent medicine inpatient service, 310–311
  clinical conditions seen in, 297–304
  issues seen in, 297–298, 303–309
advising program in Cambridge, 109, 111–117
age of majority, 165–166. *See also* competence
aggression, assessment of, 197–198
aggressive children and adolescents, 99, 192
alpha-adrenergic agonists, 188–190, 284–285
alprazolam, 254–255
American Academy of Pediatrics (AAP), 164–166
American Society for Adolescent Psychiatry (ASAP), 150–151
anticonvulsant drugs, 193–195
antidepressants
  nontricyclic, 187–188, 217–222
  tricyclic, 185–187, 198, 216–218, 257–259
antipsychotic drugs, 190–191, 271, 281–284
anxiety disorders
  classification/nosology, 243–244
  comorbidity, 247–248
  developmental issues, 245–247
  diagnostic assessment, 248–251
  drug therapy, 243, 252–264
  epidemiology, 244–245
Asperger's disorder, 272, 273, 278
at-risk populations, programs targeting, 81, 110, 129
attachment disorder, reactive, 276
attention deficit/hyperactivity disorder (ADHD), 179
  anxiety disorders and, 245, 248
  clinical presentation, 181–182
  diagnosis, 180, 182, 277
  drug therapy, 188–191, 195, 198, 199
    alpha-2 adrenergic agonists, 188–190
    antidepressants, 184–186, 188, 198
    antipsychotics, 190–191
    stimulants, 183–185
autism, 278–279
autonomy, 34, 35

B
behavior disorders
  classification/nosology, 179–180
  clinical presentation, 180–181
  comorbidity, 181, 182, 201, 215–216, 248
  diagnostic assessment, 182–183
  drug therapy, 183–202

behavior disorders *(continued)*
combination, 199
duration, 200
placebo, 196
research issues, 200–202
epidemiology, 180–181
behavioral consultation model, 81
belonging, 54–58
case material, 58–60, 63, 64
benzodiazepines, 253–257
beta-blockers, 195–196, 252–253, 285–286
biochemical correlates, 278–279
bipolar disorder, 223–224
clinical presentation and assessment, 224–225, 277
drug therapy, 225–231
bodily changes during puberty, 7, 8, 10, 11
borderline conditions, 302–303
bupropion, 187, 188
buspirone, 259–261

C
Cambridge Rindge and Latin High School (CRLS), 111–117
capital punishment, juvenile, 149–152, 159, 169–171
carbamazepine, 193, 194, 229–230
Center for School Mental Health Assistance (CSMHA), 124
child mental health, questionable assumptions in, 119–125
"chumship," 31, 60
clomipramine, 257–259
clonazepam, 254
clonidine, 188–190, 199
clozapine, 283–284
cognitive development, Piaget's stages of, 160–162
cognitive maturation, 30–31
commitment, civil, 167
community consultation model, 81
community mental health centers (CMHCs), 120
competence, 159–160, 171
civil, 163
to stand trial, 139–142, 153–154
concrete operational stage, 161–162
conduct disorder (CD), 179
diagnostic assessment, 182–183
drug therapy, 184, 185, 189–196, 198, 201
epidemiology, 180–181
placebo treatment, 196
relation to oppositional defiant disorder, 179
confidentiality and privacy, 98–99
consultation/liaison (C/L) psychiatrists, 297, 300–302. *See also* adolescent medicine inpatient service
medical expertise, 309
consultation models, 81
consultation opinions and judgments, communicating, 307–309
consultation with school districts, 96–97

D
death and dying issues, 303
death penalty, juvenile, 149–152, 159, 169–171
dependence *vs.* independence, 34, 35, 43. *See also* separation-individuation
depression. *See also* dysthymic disorder
clinical presentation and assessment, 214–216, 222–223
comorbidity, 215–216, 248
drug therapy, 216–223
major, 213–222
desipramine, 185–187
developmental disorders. *See* pervasive developmental disorders
developmental theory. *See also* interpersonal (developmental) theory
clinical applications, 40–45, 62–66
diagnosis, negative aspects of, 122
differentiation, 29, 30, 35. *See also* separation-individuation
disabilities, services for students with, 94, 99
droperidol, 191

drug abuse, 103–104
drug therapy. *See also specific drugs and disorders*
  augmentation strategies, 221–222, 231
dysthymic disorder, 222–223

E
Erikson, E.
  on adolescence, 55–56
  epigenetic model of life cycle, 54–56
  on identity development, 49–52, 54
expanded school mental health (ESMH), 124–126
  role for child and adolescent psychiatrists, 129–130
  stakeholder involvement and collaboration, 126–127
  youth needs and services offered, 127–129

F
families, and community mental health centers, 120
family therapy, multisystemic, and juvenile delinquency, 153
feminist theory, intimacy, identity and, 52
  intimacy, identity and, 52
fifty-minute session, the, 121–122, 127
fluoxetine, 188, 218–220, 262, 263
forensic psychiatry
  defined, 135–136
  ethics in, 168–169
  four-step approach to, 137–139
  *vs.* therapeutic psychiatry, 135–137
formal operational stage, 161–162

G
gabapentin, 230
gangs, 32–33
Gault, case of, 146–148
genital phase and genital sexuality, 4, 6, 14, 16, 20–22
group identification, 54. *See also* belonging, sense of
groups, adolescents traveling in, 13. *See also* gangs
guanfacine, 189–190

H
haloperidol, 281–283

I
identification(s), 60–63
  parental, 17–18, 38–39
identity, 60–63
  as self-chosen, 54, 58, 60, 64
identity concept, challenged, 52–54
identity crisis, as normative *vs.* pathological, 53
identity development, 54
  historical psychoanalytic perspective on, 49–52
imipramine, 254
independence. *See* dependence *vs.* independence
infancy, and interpersonal theory on, 28–29
informed consent and refusal, 163–166, 304–305
insanity and the insanity defense, 154–156, 170
insight, 64, 65
institutionalization, involuntary, 167
interpersonal (developmental) theory, 25–27, 29, 30, 45
  clinical applications, 40–45
  and cognitive maturation, 30–31
  and development leading up to adolescence, 28–30
  developmental progression, 27–28
  and peer relationships, 31–33
  and puberty, 33–34
  and relational developmental theory, 26–27
interpersonal view of adolescence, 39–40
intimacy
  development of a sense of, 3–5, 12, 16–17, 21, 22
  identity formation and, 52
  need for, 32

J
juvenile court system, 156
  and adult courts, 144–146, 149–153, 156, 159–160
  origins and principles, 143–144
  recent history, 148–153
  role of psychiatrists, 153–156

L
Landau-Kleffner's syndrome, 276
language disorders, 276
latency period, defined, 55
life cycle, 53–56, 58
lithium, 192–193, 225–228, 230

M
managed care, 121–123
Medicaid, 102, 106
medical inpatient service. *See* adolescent medicine inpatient service
medical model, 81–82
mental health, child and adolescent
  questionable assumptions in, 119–124
mental health care
  long-term, continuous *vs.* intermittent/episodic, 122–123, 128
  overcoming barriers to, 76–78, 83–84
mental health consultation model, 81
mental health professionals
  biases, 120, 129
  as service providers, 121, 129
  as specialists, 123–124
methylphenidate (MPH), 183–184, 187, 191, 198
mirtazapine, 221
monamine oxidase inhibitors (MAOIs), 220
mood stabilizers, 287–288. *See also specific drugs*
moral development, conceptions of, 162–163
mutual-inclusive self, 57, 58, 64

N
naltrexone, 286–287
nefazodone, 221
New Mexico School Mental Health Initiative (SMHI), 104–106
nursing staff, mediating difficult interactions between patients and, 305–307

O
obsessive-compulsive disorder (OCD), 243–244
Office of Juvenile Justice and Delinquency Prevention, 144, 148
olanzapine, 284
oppositional defiant disorder (ODD), 179
  drug therapy, 189, 193–195
  epidemiology, 180–181

P
parental authority, 37–38
parental identifications, 17–18, 38–39
parental relationship, renegotiation of the, 34–39
parents, working with, 42–43
peer groups, culture, and relationships, 31–33, 38, 60. *See also* groups
permission, parents allowing adolescents, 36, 37
personality disorders, severe, 302–303
pervasive developmental disorders (PDD), 271
  assessment, 273–274
  biochemical correlates, 278–279
  classification, 272
  developmental issues, 275
  differential diagnosis, 275–277
  epidemiology, 273
  treatment, 279–280
    drug therapy, 271, 279–288
pharmacologic treatment. *See* drug therapy
pindolol, 195–196
posttraumatic stress disorder (PTSD), 103
  comorbidity with behavior disorders, 181, 182
preoperational stage, 160–161

prevention programs in schools, 128–129
previewing, 36–37
Primary Mental Health Project (PMHP), 121
privacy. *See* confidentiality and privacy
promotion, of adolescents by parents, 36, 37
propranolol, 195–196
psychoanalytic identity theory, 49–52. *See also* separation-individuation
psychoanalytic technique, 25
psychodynamic therapy, 25, 64
psychogenic illnesses, 300–302
psychosis, 275
  in adolescent medical service, 303–304
  assessment, 273–275
  classification, 272–273
  differential diagnosis, 276–278
  drug therapy, 271, 280–284, 288
  epidemiology, 273
puberty, 7–8, 10
  bodily changes during, 7, 8, 10, 11
  interpersonal context of, 33–34
  interpersonal theory and, 33–34
  sexuality during, 33–34
public health approaches, combined with child psychiatry, 79–80

R
"recapitulation theory," 39
refusal of treatment, 163–164, 167
relational developmental theory, 26–27
research on adolescents, legal and ethical issues in, 166–167
Rett's disorder, 272
rights and privileges, adolescent, 159
risperidone, 191, 282–284

S
sameness-difference theme, 16
schizophrenia
  biochemical correlates, 279
  comorbidity, 278
  drug therapy, 283–284
  epidemiology, 273
school-based health centers (SBHCs), 69–72, 75, 125
  history, 77–78
  in New Mexico, 102–103
  as unique opportunities to reach youth, 77, 79–80, 85–86
school-based mental health care
  need for models of, 80–83
  in New Mexico, 101–107
  recommended components of new models, 83–85
  visits to, for mental health problems, 81
school-based mental health clinics, on-site, 91–93, 98–100
  family focus, 95
  identifying students in need, 98–99
  patients and families served by, 93–94
  services, 95–98
school districts, consultation with, 96–97
School Mental Health Initiative (SMHI), 104–106
School Mental Health Program (SMHP), 124–126
school staff, collaboration with clinicians, 127
selective serotonin reuptake inhibitors (SSRIs), 217–222, 261–264, 286, 288. *See also* fluoxetine
self, sense of
  development and redefinition of, 3–5, 7, 10–11. *See also* separation-individuation
self-mutilating behavior, 9–11
self psychological perspective, 1–2, 25
separation anxiety, 246, 253
separation-individuation, 34
  case material, 9–11, 14–16, 18–22
  in early adolescence, 6–13, 21
  in late adolescence, 17–22
  in middle adolescence, 13–17, 21
  theories of, 4–6
sertraline, 219

sex, adolescent
laws regarding, 167–168
sexuality, during puberty, 33–34
somatoform disorders, 300–302
special education model, 81
State Children's Health Insurance Plan (SCHIP), 106–107
stimulants, 183–185, 287
suicide attempters, 299–300
supportive therapy, 64

T
tardive dyskinesia, 284
teachers, and mental health care, 123–124
therapeutic binds, 65
therapeutic models and methods, 64
therapeutic relationship, 41–45
therapy. *See also* developmental theory, clinical applications
interpersonal theory and, 40–43, 45
case material, 43–45
psychodynamic, 25, 64
supportive, 64
terminating, 128
working with parents, 42–43
therapy sessions, length of, 121–122, 127–128
thioridazine, 191
Tourette's disorder, 278
training, clinical
school as optimal area for, 127
treatment, mechanisms for engaging students in, 84
treatment refusal, 163–164, 167
tricyclic antidepressants (TCAs)
for anxiety disorders, 257–259
for behavior disorders, 185–187, 198
for depression, 216–218

U
underachievement. *See* academic performance
University of Maryland's School Mental Health Program (SMHP), 124–125

V
valproate/valproic acid, 193–195, 228–229
venlafaxine, 221

Y
Youth and Family Centers, 72–73
